

Words From Mayor Beck

The Industrial Park is progressing. Grant contracts are all signed with Idaho Commerce of Labor. Design work has begun on the water, sewer, and street. Platting of the lots is also underway. Summit has secured their finances for the truss plant. We have probably slipped about a month from our original schedule. Hopefully we can maintain this

schedule.

Spring is here. Again I ask all residents to clean up their yards. If you need help removing trash please call the city office. Also, if another trash cart would help, you can get one for an additional \$3.90 per month and use it for summer months only.

Matt Blanchard
Police, Animal Control/Compliance Officer, Mayors Youth Group

If anyone would like to foster a dog or puppy from the pound, please call the city office. The animal control officer can notify the HSUV and a volunteer will help you in fostering.

If you have an unwanted litter, offer to foster the animals before you abandon them. Chances are good that they will find homes in two or three months.

We can end the cycle of unwanted pets, if we all try.

Shawn Fransen
Parks & Recreation, Finance

Arbor Day was a great success. The City along with the help of our 1st and 2nd graders from Central Elementary planted 4 trees at the

skate park. These are a great addition and will be enjoyed for years to come. Thank you to all who helped.

We have several applications under review for the Chief of Police position. I have been impressed with the quality and professional qualifications of these applicants.

Also as general information to the public ECIPDA/East Central Idaho Planning and Development Association provides information in obtaining business loans and also provides services to help the average consumer in business plans. They are located in

Rexburg, you can contact Dave Odgen @ 356-4524 Ext. 319.

In closing, as a proud member of the community of St. Anthony, I would like to say what pride I take in a community coming together in finding the lost woman the weekend of April 24th. A big thank you to all who helped.

Darby Merrill
Water & Sewer, Personnel

After holding a public open house and a public hearing, the water facility planning study was approved by the city council on April 26th. Contained in the water study is information relating to the reasons for conducting the study, the current status of the existing water system, the proposed future improvement projects, and additional information on the city water system. A copy of the city of St. Anthony water facility planning study is on file at the city office if anyone is interested in looking through the report. If you have any questions concerning the

water study, please contact the city office.

to see if there is a leak in your system.

We have read the water meters for the first time this year, if you feel your winter usage rate looks overly high, contact the city office

City Clerk's Corner

Taci Stoddard

Let's be a pedestrian friendly city! Please be aware of your surroundings as you drive and be courteous to people trying to cross the streets. I know we are all in a hurry these days, but we need to slow down a little and be more careful. The City gets numerous complaints about people's close calls with vehicles.

The City will start its budget process soon for fiscal year 2007, which begins October 1st, 2006. If you have any concerns or items you would like to see addressed in the city's budget contact the Mayor, a City Councilmember or myself. Remember it's your money.

Help determine YOUR community's future Roadway Improvement Projects.
 Your comments and input are needed to help prioritize preferred county wide transportation improvements through 2025. Three open house public meetings have been scheduled throughout the county for your convenience. Stop by anytime between 1-7 pm:
