

Words From Mayor Beck

We are nearly completed with our transportation study. We have had several open houses through out the county. We appreciate those who have attended, the numbers were very small however, so we don't have a good feeling of consensus of what the tax payers of St. Anthony want for our streets. We continue to work on the pavement management plan. The overall health of

our current city streets is poor. Most of our streets need major rebuilding or repair. There are a few options we can consider including not doing anything. The City Council and Mayor desperately need your input and ideas. Please contact us on this subject. We need and want to visit with you on this vital issue. Please feel free to write us if that works better for you. Thank you St. Anthony residents.

Councilmember's Comments

Garth Rose

Council President

Sanitation, Fire & Finance

I have noticed a lot of residents are filling up their garbage containers now that summer has arrived. For a small fee, residents can get an extra container & not have any problems on where to put their garbage. Inquire at the city office.

Thanks to you residents who took advantage of the spring cleanup. The city looks better, but there is still a lot of clean up needed.

Take advantage of our parks and greenway and enjoy what the city has to offer.

Shop in St. Anthony if you can. We still have a lot of great businesses that need and want our support.

Cathy Koon,

Streets, Airport

Fremont County has asked the city to consider adopting the county's addressing system to make it easier for emergency response personnel. I'm not convinced it's necessary, but there is one thing that needs to be done, regardless. Every home in St. Anthony needs a house number that is clearly visible from the street, no matter what time of year, and it needs to be reflective so it's visible at night. I would encourage every resident and business owner to take a look from the street at their building. If you were an ambulance driver or a police officer looking for the scene of an emergency, could you easily find the house number? Is it obscured by a porch post, a shrub, a tree branch or a parked car? Is its reflective tape worn out? Do you have a house number? As a matter of your personal safety, please make sure your house number is in plain sight and big enough to be seen.

One more quick note: We held a public meeting last week on the proposed Fremont County

Transportation Plan, and the turnout was dismal. This is going to be one of the major issues facing the cities and Fremont County in the next few years. The growth we are seeing is going to put pressure on roads that are already deteriorating, and we don't have the money to maintain what we have, much less rebuild or add streets as developers build them. Stay tuned as we hash out solutions to this dilemma.

Dee Rausch

City Properties, Economic Development, Personnel Committee

I would like to offer a big THANKS to Chief Fullmer for the 28 years of dedicated services to the City of St. Anthony.

FEAC/Fremont Economic Development Board has voted to partner with MEDCO/Madison Economic Development Corp. MEDCO executive board will consider this in their meeting July 10th. FEAC board feels this will be a great opportunity for both counties. Clair Boyle would be both counties Economic Development Specialist. I will have more information after the meeting July 10th.

Have a happy 4th.

Darby Merrill

Water & Sewer, Personnel

Construction on Phase II of the wastewater system continues to progress in the city. For information on the construction schedule or if you

have any questions about the project, please contact the city office @ 624-3494.

Justin Eckman constructed a sign to mark the entrance of Veterans Memorial Park as an eagle project. The sign looks nice and adds to the park. I would like

to thank all of the eagle scouts for the projects they have completed to make the city look nicer.

The city again will be selecting residential and commercial properties for the monthly beautification awards.

City Clerk's Corner

Taci Stoddard

Now that summer has arrived, please be careful and watch for kids that are out playing and riding their bikes .

There will be no life guard on duty at the sandbar from June 1st through the 15th.

The Parks and Recreation Committee will be meeting on June 21st to put together a proposal for improving the City parks. The meeting starts at 7:00 p.m. and will be held at the City Office. We would love to have input from the community about the parks in your area. Please join us and share your ideas.

The City is asking that if anybody has consistent extra garbage on pickup day that you call the city and request an extra cart. The cost of the cart is very low at only an extra \$3.90 a month on your bill. We are proud of our town location and this will help
