Above is an overview of the City's budget for the first quarter of the fiscal year. 25% of the year has passed and almost all departments and funds are well within their budgets. The first quarter is always behind a bit in revenues until we receive our first tax payment from the county. We should be receiving that any day now. As we enter into 2012 we are looking forward to another good year with several projects being considered including more chip and sealing of some of our city streets. I am writing this before the Public Meeting on West Main Street, scheduled for Thursday, January 26<sup>th</sup>. I hope you could attend. Design work has begun on the West Main Street and I don't think construction will happen soon enough. I am trying to hurry the project along as fast as I can and our engineers are working very hard to meet and/or exceed the required deadline. Remember, if you have any questions; please give me a call at 390-0077.

## WINTER CARNIVAL IS COMING!!!!

As you learned in the January Newsletter, the St. Anthony Parks and Recreation Committee is sponsoring a Winter Carnival later this winter. The date of the carnival is Saturday, February 11, 2012. Activities will include miniature golf, cross country skiing, tubing and sledding, as long as there is snow. Even if there isn't snow we will come up with fun events for the entire family. Yummy refreshments will also be available. As with any city-wide activity, we need volunteers who are willing to assist us in the planning and creation of a Winter Wonderland on February 11<sup>th</sup>. So please mark that date on your calendar, invite your friends and family to join you and call me, Richard Law, at 624 - 7801 to get involved in the second annual St. Anthony Winter Carnival. If you have ideas and or equipment that would help us, we would love to hear from you. If you have ideas for contests, games, activities, refreshments, etc., the number to call is 624 - 7801.

**REMEMBER TO RUN A SMALL STREAM OF WATER IN YOUR HOMES DURING THE COLD WINTER. THERE IS NO SNOW ON THE GROUND TO OFFER INSULATION FOR YOUR WATER LINES. RUNNING A SMALL AMOUNT OF WATER (A PENCIL SIZE STREAM) CAN PREVENT YOUR PIPES FROM FREEZING.**
